

Dear Parents,

My name is Liz Pirrelli and I am going to be your child's first grade teacher.

Enclosed you will find a calendar for the summer months. The calendar is filled with suggestions for you to do with your child to help prepare them for the coming year and to review what they have already learned. For this program it would be a good idea for you to purchase a journal/notebook in order to complete it. Work on the calendar as you see fit. If you complete it early and are looking for more ideas you can repeat the calendar. The month of July was chosen to give you an opportunity to space out the activities and have time to complete them before school begins in September.

Additionally, I would like the children to work on Mathematics 3 or 4 times a week, if possible. You may record the dates and amount of time in the back of the notebook.

On the first day of school please send in all the completed work!

I hope you find it useful and, mostly, helpful. Keep in mind that you should read to your child each night in addition to the calendar activities. Have a great summer and I'll see you in September!

Sincerely,

Mrs. Pirrelli

July 2017

First Grade Summer Assignments
